## Description

Rare Crimea Period 1846 Imperial Russian Izhevsk Arsenal .700 Calibre Percussion Carbine Musket.  
Sn 16767 - 16767

This Pattern of Russian musket were an almost exact copy of the contemporary Model 1842 French Army musket of the period. Our example has a 26 ½" barrel and measures 42" overall length. The smoothbore has staining consistent with age. The barrel is numbered 'No. 3206' and has a small bead fore sight. Its original wood furniture has knocks bumps and bruises to be expected with age and service use. The action plate is dated '1846' which is repeated twice on the brass trigger guard and once on the brass butt plate. The Trigger guard and butt plate also have the Izhevsk Arsenal 'bow & arrow' marks. The butt plate also has the Imperial Russian double headed Eagle stamp. The carbine has a wood ram rod with brass ferrule. The action functions as it should. The price includes UK delivery. NB This is an antique muzzle loading percussion rifle and no licence is required to own it in the UK if retained as a part of a collection or display. Sn 16767

£875.00
